

Nigeria Data Protection Regulation Lead Compliance Auditor Training- 4 Days

This Nigeria Data Protection Regulation Lead Compliance Auditor Training course enables you to develop the necessary skills to perform an audit for the protection and privacy of personal data by applying widely recognized audit principles, procedures and techniques. During this training course, you will obtain the knowledge and skills to plan and carry out audits in compliance with ISO 19011 and ISO 17021-1 certification process.

Delegates will be able to acquire knowledge on the protection of privacy in the context of processing personal data as well as master audit techniques and become competent to manage an audit program, audit team, establish communication with customers and resolve potential conflicts.

Why should you attend?

As data protection is becoming more and more valuable, the need for organizations to protect these data is also constantly increasing. Besides violating the fundamental rights and freedoms of persons, not complying with the data protection regulations can lead to risky situations that could harm an organization's credibility, reputation, and financial status. This is where your skills

as a data protection auditor come to place, to validate the effectiveness of Nigeria Data Protection Regulation Act 2019.
