Nigeria Data Protection Regulation Lead Implementer Training- 4 Days

This Nigeria Data Protection Regulation Lead Implementer training course enables you to develop the necessary expertise to assist an organization to establish, implement, maintain and continually improve the protection and privacy of personal data. This training course is designed to prepare its delegates to implement a Data protection and Privacy Management System in compliance with the requirements and guidance of the ISO 27701- Privacy Information Management System. ISO 27701 is a privacy extension to ISO 27001- Information Security Management System; it outlines a framework for Personally Identifiable Information (PII) (personal data) and ensures the management of privacy controls to reduce the risk to the privacy rights of individuals.

Moreover, you will gain a comprehensive understanding of the best practices of privacy information management and learn how to manage and process data while complying with various data privacy regimes.

Why should you attend?
This Nigeria Data Protection Regulation Implementer training course provides delegates with in-depth technical and procedural know-how to ensure an effective implementation of NDPR. As a guide this training uses ISO 27701- Privacy Information Management System.
